CITY AND COUNTY OFFICIAL PAPER

FREE COINAGE 16 to 1

For President and Silver:  
W. J. BRYAN, of Nebraska.

For Vice-President.

ARTHUR SEWALL, Maine.

For Delegate, "OUR MARK"

**UNDER WHICH FLAG?**  
"We are unalterably opposed to the single gold standard. We are unalterably opposed to every measure calculated to debase the currency or impair the credit of our country. We are therefore, of gold and silver, and we are for the free coinage of silver at the rate of 16 to 1, without waiting for international agreement or the aid of any other nation. We demand that the world, which we have made, shall be a full legal tender, and until such tender, equally with gold, can be obtained for all debts, public or private, and we will favor such legislation as will prevent the devaluation of silver. We will favor the free coinage of silver at the rate of 16 to 1, without waiting for international agreement or the aid of any other nation. We demand that the world, which we have made, shall be a full legal tender, and until such tender, equally with gold, can be obtained for all debts, public or private, and we will favor such legislation as will prevent the devaluation of silver." — Democratic platform, Chicago.

Politics make strange bedfellows. Archbishop Ireland and Robert G. Ingersoll are laboring in the same vineyard.

It begins to look like a landslide for the silver nominees. The people are about to assert their power as well as their determination to run this government on the principles of the men who founded it.

Private advices received from reliable sources convey the pleasing intelligence that Mark Smith is daily gaining strength all over the territory. From present indications his majority will be larger this fall than ever before.

Whatever may be the sentiment in other sections of the territory regarding county division, Cochise is solidly opposed, as say the legislative nominees of all the political parties, and with the exception of three, who are out in the field and from whom the Prospector has not as yet been able to hear, have publicly expressed themselves over their signature. They are all honorable men, and which ever of the number may draw the winning card the people can rest assured that their representatives are determined that their official acts shall be in the interest of all the people, and that the door against greater taxation shall be closed.

A prominent Republican stated yesterday that the Prospector's criticism regarding the 4.22 tax rate was hardly fair inasmuch as 58 cents of the rate was for bonded indebtedness which fell due this year and must be met and which if deducted would leave the rate 16 cents lower than last year. The Prospector does not mean to be unfair and at any time our columns are open to anyone who thinks there has been any misrepresentation, yet we hold the tax rate is unreasonably high and there is something wrong somewhere let the blame rest where it may. With an increase in the taxable wealth of over \$100,000 or to be exact in round numbers \$145,000, a saving through the classification law of nearly \$5000 for salary and again the immense saving for publishing the minutes of the board and yet the rate is the highest in the territory—and this is supposed to be a third class county.
